There is a metro stop within a couple blocks, which easily gets you to some prime shopping and restaurant areas. The rooms are not large, but the very high ceilings make the rooms feel roomy. We look forward to a return visit to Montreal and to this charming Hotel.

Fabulous location, & wonderful service in an extraordinary hotel environment. The hotel staff is extremely nice.

Though not big, the rooms were beautifully decorated & super comfy.

The peal area was out of this world! So much to see and do there too.

were very disappointing and not comfortable.

The pool area was out of this world! So much to see and do there too. A very safe city to walk around. Montreal is very very expensive due to the low value of the US dollar, but it was worth it.

Though the hotel was located close to the subway, there was too much noise in the area of the hotel. The staff was friendly and did their best to make us comfortable. The breakfast was good enough. The rooms

The location of the hotel was highly appreciated, especially its proximity to the subway, though one reviewer said that there was too much noise in the area. Also, most reviewers appreciated the rooms, stating they were comfortable, albeit small.
